

JAE YEON KIM

Overview

- Computational social scientist: using data science to study the politics of diversity and inclusion
- Research software developer: building tools that make digital data collection easier and faster
- Experience: analyzing survey, experimental, administrative, and text data using statistical and machine learning methods

EDUCATION

- 2016
|
Present
- **University of California, Berkeley**
PhD Candidate in Political Science  Berkeley, California, USA
- Summer
2019
- **Summer Institute in Computational Social Science**
Participant (10% acceptance rate)  Princeton University, Princeton, USA
- 2014
|
2016
- **University of California, Berkeley**
MA in Political Science  Berkeley, California, USA
- 2012
- **Korea University**
BA in Political Science and English (completed exchange student programs in Hong Kong and Taiwan)  Seoul, South Korea

PROFESSIONAL EXPERIENCE

- September
2020
|
Present
- **Visiting Fellow**
[P3 Lab](#), [SNF Agora Institute](#)  Johns Hopkins University
- Collaborated with Milan de Vries (former Director of Analytics at MoveOn.Org)
 - Parsed more than 3 million tax reports ([XML files stored in Amazon AWS](#)) filed by nonprofits in the United States and linked this data source with these organizations' websites and social media handles
 - Designed and built a data infrastructure that tracks civic organizations in the US and their relationships with food security, polarization, and the 2020 racial justice movement
- May
2019
|
Present
- **Senior Data Science Fellow, Instructor, and Statistical Consultant**
[Data-intensive Social Sciences Lab](#)  UC Berkeley
- Developed a Shiny dashboard for inspecting input features and predicted outcomes of the [D-Lab's Online Hate Speech Index Project](#)
 - Consulted 70+ Berkeley faculty, students, and staff on applied statistics, machine learning, and database management
 - Taught [7 original workshops](#) on machine learning, functional programming, package development, advanced data wrangling, and reproducible project management

Last updated on 2020-11-18.

COURSEWORK

Statistical and Causal Inference, Experimental Design, Survey Methods, Game Theory, Computational Social Science

Passed [Political Behavior](#) (social and cognitive psychology, survey and experimental design) field exam with distinction

SKILLS

📊 **Quantitative:** Statistical and causal inference, Experimental and survey design

💻 **Computational:** Natural language processing, Machine learning, R (tidyverse, tidymodels, statistical packages), Python (pandas, scikit-learn), Git, SQL (PostgreSQL), NoSQL (MongoDB), Linux Command Line

Spring
2020

● **Data Science Education Program Fellow** **Data Science Education Program**

📍 UC Berkeley

- Served as research lead for the undergraduate students and project partners involved in 40+ [data science discovery projects](#)
- Taught original [workshops](#) on project management, computational reproducibility, bias in machine learning, and data visualization
- Published [an article](#) on project management in SAGE Ocean, an initiative from SAGE Publishing focusing on computational social science

Fall 2016
|
Present

● **Graduate Student Instructor**

Department of Political Science

📍 UC Berkeley

- Developed and taught an original graduate-level course on [computational tools for social science research](#) as an instructor ([original online textbook](#))
- Taught an undergraduate-level applied statistics as a teaching assistant and received [the outstanding graduate student instructor award](#), which is given to less than 10% of Berkeley TAs

SOFTWARE

tidytweetjson: R package for turning Tweet JSON files into a cleaned and wrangled dataset. The package takes 12.34 seconds to turn 5,685 articles into a tidy dataframe.

tidyethnicnews: R package for turning search results from one of the largest databases on ethnic newspapers and magazines published in the United States into a cleaned and wrangled dataset. The package takes 4 minutes to turn 2 million tweets into a tidy dataframe.

makereproducible: R package for making a project computationally reproducible before sharing it.

TidyChaseBankStatements: R Package for turning Chase bank Statements into a tidy dataframe.

RESEARCH EXPERIENCE

Summer
2020
|
Present

● **Large-scale Twitter Analysis on COVID-19 and Anti-Asian Climate** [\[GitHub\]](#) [\[Preprint\]](#)

PhD Candidate

📍 UC Berkeley

- Developed an [R package](#) that automates parsing a large Tweet JSON file (>5GB) into a cleaned and wrangled dataset
- Applied dynamic topic modeling to 1.4 million tweets and traced the rise of anti-Asian sentiment in the post-pandemic US
- Co-authored a [preprint](#), which is under review at the *Perspectives on Politics*

★ **Fellowships:** Democracy Visiting Fellowship, Ash Center for Democratic Governance and Innovation, Kennedy School, Harvard University (2020, declined), Social Media Research Fellowship, D-Lab and Social Science Matrix, UC Berkeley (2020, declined), D-Lab Data Science Fellowship, UC Berkeley (2020), Data Science Education Program Fellowship, UC Berkeley (2020), American Democracy Project Fellowship, UC Berkeley (2019), California Poverty and Socioeconomic Inequality Fellows Program, the Blum Initiative for Global and Regional Poverty Studies (2017), Berkeley Empirical Legal Studies Graduate Fellowship, Center for the Study of Law and Society, UC Berkeley (2017)

🏆 **Awards:** Don T. Nakanishi Award for Distinguished Scholarship and Service in Asian Pacific American Politics, Western Political Science Association (2020), Outstanding Graduate Student Instructor Award, UC Berkeley (2016)

Fall 2019
|
Present

Causal Inference and Machine Learning [GitHub] [Preprint] [Slides]

PhD Candidate

📍 UC Berkeley

- Developed an [R package](#) that automates parsing ethnic newspaper articles (in HTML format) into a cleaned and wrangled dataset
- Used a natural experiment and machine learning to examine how threats prompt information seeking among marginalized populations
- Co-authored a [preprint](#), which is under review at the *American Political Science Review*

Spring
2020

Intersectional Bias in Hate Speech and Abusive Language Detection Datasets [GitHub] [Preprint] [Slides]

PhD Candidate

📍 UC Berkeley

- Classified gender, racial, and party identities of the 100k tweets
- Demonstrated African American tweets were up to 3.7 times more likely to be labeled as abusive, and African American male tweets were up to 77% more likely to be labeled as hateful compared to the others
- Published the paper version in *Proceedings of the Fourteenth International Conference on Web and Social Media (ICWSM), Data Challenge Workshop*

Fall 2018
|
Spring
2019

Natural Language Processing and Machine Learning [GitHub] [Preprint] [Slides]

PhD Candidate

📍 UC Berkeley

- Demonstrated unreliable training data generates weak predictions and extreme interpretations using 80k+ ethnic newspaper articles
- Received the [Best Paper Award in Asian Pacific American Politics](#) from the Western Political Science Association (2020)
- Authored a preprint, which is forthcoming at the *Journal of Computational Social Science*

2016
|
2018

Statistical Modeling of Time Series Data [GitHub] [Preprint]

PhD Candidate

📍 UC Berkeley

- Examined how social policy influenced community organizing among Asian Americans and Latinos by creating an original [organizational dataset](#) and modeling time-series data
- Authored a preprint, which was invited to Revise and Resubmit at *Political Research Quarterly*

2019
|
Spring
2020

Survey and Experimental Research [GitHub] [Preprint]

PhD Candidate

📍 UC Berkeley

- Designed a within-subject experiment and embedded it in a California-wide survey to investigate how different racial groups interpret questions on racial solidarity differently
- Authored a [preprint](#)

Summer
2018

Survey Research [GitHub]

Graduate Student Researcher

📍 UC Berkeley

- Cleaned and wrangled the largest panel survey data on Asian Americans and conducted factor and regression analysis

ORGANIZING EXPERIENCE

Summer Institute in Computational Social Science in the San Francisco Bay Area [\[Blog post\]](#)

Co-organizer

📍 August 2019 - July 2020

- Raised 50k+, reviewed 100+ applicants and selected 20 participants
- Developed close partnerships with Bay Area nonprofits (e.g., Code for America, DonorsChoose, Hopelab)
